Peruvian Guano Substitute!

BAUGH'S

RAW BONE

SUPER-PHOSPHATE OF LIME.

TRADE MARK

BAUGH & SONS,

Sole Proprietors and Manufacturers,

Delaware River Chemical Works,

PHILADELPHIA, U. S. A.

For WHEAT, RYE, BARLEY, CORN, OATS, POTATOES, TOBACCO, BUCKWHEAT, SORGHUM, TURNIPS, HOPS, GARDEN VEGETABLES, and every Crop and Plant.

Especially recommended to growers of STRAWBERRIES, RASPBERRIES, BLACKBERRIES, and all SMALL FRUITS.

More than 13 years of regular use upon all descriptions of Crops grown in the Middle and Southern States, has given a high degree of popularity to this MANURE, which places its application now entirely beyond a mere experiment.

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME is eminently a success as a Substitute for Peruvian Guano and Stable Manure—and is offered to the Agriculturists of the Northern and Eastern States as a fertilizer that will cheaply restore to the Soil, those essentials which have been drained from it by constant cropping and light manuring.

IT is very prompt in its action—is lasting in effect to a degree unattained by any commercial manure in the market, and is afforded at a much less cost than *bought* Stable Manure, or Peruvian Guano. The Labor involved in its use is far less than that of applying stable manure, while there is no risk from the introduction of noxious weeds.

☞Farmers are recommended to purchase of the dealer located in their neighborhood. In sections where no dealer is yet established, the Phosphate may be procured directly from the undersigned. A Priced Circular will be sent to all who apply.

Our NEW PAMPHLET, "*How to Maintain the Fertility of American Farms,*"—90 pages, giving full information in regard to the use of manure, &c., will be furnished gratis on application.

Sewing Machines.

THE GROVER & BAKER.—THE BEST IN USE. These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money,* and do their work better than it can be done by hand.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES!

I have tested these Drops in my own practice, over ten years, and do not hesitate to say, that nothing has yet been developed by medical research, that acts so powerfully, positively, and harmlessly, in cases of female irregularity, as does this medicine. In all recent cases it never fails, while thousands who have been long sufferers, are indebted to it for the boon of health to-day.

Although so powerful and positive, they are perfectly harmless, and may be used at all times, except when specially forbidden in the directions.

They have been extensively employed by eminent physicians in France and England, as well as in my own practice, over ten years, and I have yet to hear of the first instance of failure. I could give you testimonials of their efficacy from all over the northern and western States, were they not in their nature private. Over 100,000 bottles have been sold the past year, and I hope and trust as many sufferers have been benefitted. I am well aware that a remedy so potent to remove all obstructions, may be used for a bad purpose, but trust that where one bottle is thus used, ten may fall into the hands of really needy sufferers.

To all who suffer from any irregularity; painful, difficult, excessive, offensive or obstructed Menstruation, Lucorrhea, or the train of diseases that follow, I would say, try a bottle of DR. LYON'S FRENCH PERIODICAL DROPS. Being a fluid preparation, their action is more direct and positive than any pills or powders. Explicit directions, bearing my fac simile, accompany each bottle.

They may be obtained of nearly every druggist in the country, or by enclosing the price to C. G. CLARK & CO., New Haven, Conn., General Agents for the United States and Canada. DR. JOHN L. LYON,

PRACTICING PHYSICIAN,
New Haven, Conn.

Selected Poetry.

TO-DAY AND TO-MORROW.

Don't tell me of to-morrow;
Give me the boy who'll say
That when a good deed's to be done,
"Let's do the deed to-day."
We may all command the present,
If we act and never wait;
But repentance is the phantom
Of a past that comes too late.

Don't tell me of to-morrow;
There is much to do to-day
That can never be accomplished
If we throw the hours away.
Every moment has its duty;
Who the future can foretell?
Then why put off till to-morrow
What to-day can do as well?

Don't tell me of to-morrow;
If we look upon the past,
How much we have left to do,
We cannot do at last.
To-day! it is the only time
For all on this frail earth;
It takes an age to form a life;
A moment gives it birth.

Agricultural & Domestic.

PLANT TREES.

The genial season has come—the season of bursting buds, emerald grasses and singing birds. It is the season, also, of unusual activity and labor on the farm, in the garden and the nursery. There is no lack of employment for those who "earn their bread by the sweat of the brow." We have ploughing, sowing, manuring, planting and pruning to attend to; also the transplanting of fruit and ornamental trees. The farmer or gardener who overlooks this latter duty, neglects one of the most important duties of his profession. The diversity of soil and climate in this country, gives us remarkable facilities for the cultivation of fruit; and no man who owns a farm, garden, or even a house-lot, should omit setting out fruit trees. They cost but little, require small attention, yet return us delicious and health-giving food, and add considerably to the value and attractiveness of our homes.

Many persons, intelligent ones, too, live on farms or country-seats all their lives, but never set out a tree. They neglect this duty because they think "it takes too long for trees to grow and bear fruit." Prodigious philosophers! Suppose those who "came before us"—our ancestors—entertained the same selfish notions; where would be the luxuriant fruit that now tickles our palate? Where? Not certainly in the blooming orchards, nor in every village or city market. Instead of the abundance of apples, peaches and pears; the profusion of plums, cherries and other delicacies in the way of small fruits, we should "go hungry" for those luxuries; and the noble orchards which beautify our farms and diversify the landscape would become curiosities, and the little garden of the poor man would be a comparative desert, a wild, a solitude to himself and family. This error, mistake, or stupidity in not planting trees *because they are slow in coming to maturity*, or frail-bearing, is not valid; it is the excuse of the idle man, the apology of the sluggard, and the subterfuge, evasion and shift of those who live upon the labor of others.

We cannot jump from diaper to broadcloth; we cannot make prize-beef out of juvenile calves; we cannot slide from depravity to righteousness, nor can we raise or propagate tree fruits in a day or a year. But, by proper planting, skillful culture on favorable soils, we can obtain fruit in a comparatively brief time. If we do not live to enjoy the returns for our labor somebody else will—perhaps your children or grand-children, or maybe a foot-sore and travel-weary beggar may rest beneath the broad, bending branches of *your* orchard; he may satisfy the gnawings of hunger on *your* fruit, and thank the Great Father of all, that *you* planted, watered, pruned and protected the trees that continued to bloom, blossom and bear good fruit while the grass and the daisy nod over your mouldering ashes.

The profits of orchard, or tree culture, are increasing every year. With good management the fruits of the orchard will often bring more than the productions of the field. Few orchards, if on good soil and properly cared for, will fail to net one hundred dollars per acre—often twice or thrice that amount. The demand for fine fruit is increasing annually, and there is no danger of overstocking the market. But if there was little marketable value in orchard fruit, it should be cultivated for its health-giving properties—for yourself, your family and your friends. Go on the principle of increasing domestic comfort; of perpetuating good health; of adding something to the pleasure and happiness of those who are dependent upon you.—Generosity to posterity, to those who may toil on the same farm, who may sow the same fields, who may gather the harvests after you have gone, and who are at last laid beside you under the same identical soil you have cultivated, should not be forgotten. We all belong to one great family or brotherhood, of whom God is the Great Father.—*Farm and Fireside.*

FORESTS, RAINFALL AND WATER COURSES.

The influence which trees of forests exercise in the production of rain and keeping up the flow in water courses, is attracting the attention of the residents of the prairie regions. This influence is much greater than would be imagined by those who have not watched the effect of the gradual removal of the forests on the fall of rain, and the consequent diminution of the volume of water in creeks and brooks. In early days, away back in the beech woods, rainy days in the summer and snowy ones in the winter were the rule, and fair ones the exception. Then the creeks and water courses were flush and never known to run dry. Ten years ago, on visiting that region, we were surprised to find that what were considerable creeks in early days, and well stocked with fish, had dried up, and the courses become partially obliterated. This change was produced by clearing up the forest; hence the inference is fair that were trees to be cultivated to any considerable extent in the prairie regions, the atmospheric influences there would undergo a corresponding change. As corroborative of this view, the following, from Boussingault's *Rural Economy*, is subjoined: "The Wolf spring, in the commune of Soubey, France, furnishes a remarkable instance of the influence of woods upon fountains. A few years ago this spring did not exist. At the place where it now rises a small thread of water was observed after very long rains, but the stream disappeared with the rain. The spot was in the middle of a very steep pasture, inclining to the south. Eighty years ago the owner of the land perceiving that some firs were shooting up in the upper part of it, concluded to let them grow; and they soon formed a flourishing grove. As soon as they were well grown a fine spring appeared in place of the occasional rill, and furnished water in the longest drouth. For forty or fifty years this spring was considered the best in Closdu-Doubs. A few years since the grove was felled and the ground turned again to a pasture. The spring disappeared with the wood, and is now as dry as it was ninety years ago."

BEES ROBBING PASTURE.—A dairyman once remarked that he did not like the community for dairying, on account of the bees which were pastured, the country keeping bees largely. This was a new thought, and opened the eyes of the by-standers, but it is true nevertheless. The saccharine principle is an important element in herbage. The white clover, which is one of the main reliances of the dairyman, is seriously robbed of its treasure by these roving thieves, at the expense of the sweetness of the milk, and the sugar generally necessary to a cow's benefit. It is a small matter, and overlooked, but has its force.—*Cor. Rural World.*

HOLDING UP MILK.—Mr. L. Morton informs the Rural American that when his cows trouble him in this way he reaches his hand up and places the ends of his fingers on the backbone, forward of the hips, and presses down hard for a minute or so, and they will always give down.

CHICKEN GUANO FOR APPLE TREES.—It is well known that the Yellow Bellefleur is a very shy bearer in many locations. Mr. Cheeseman says that he has found that a liberal mulch of chicken guano applied about the tree has caused abundant crops of excellent fruit, while other trees planted the same time, not so treated, have borne but little, and of inferior quality.

A GOOD EXAMPLE.—William Clark, of Northampton, Mass., has offered to give each family in town, who did not possess one, a Concord grape vine, and a committee of the horticultural club has been appointed to ascertain the number of vines needed.

☞Raspberries that were left unpruned last fall should be at once attended to, and all the old wood and young, slender, weakly shoots cut out. Leave four to six good strong canes to each hill, but head off their tops about one-fourth of their height.

TRIBUTE TO ARTEMUS WARD.

Si Slokum, Jr., who is decidedly the most talented of our eccentric writers, and most distinguished for his skill in orthography and ethoepy, pays the following tribute to his contemporaneous humorist, in the following unique and pathetic style:

Gone, gone, iz poor Artemus Ward!
Him, to hoom, with one accord,
All the people did applaud,
Ez the true and hagnodine lord
Ov American humor. We laud
Hiz exquisit drollery—not broad
Buffoonery, but quaint and genial—frand
Wuz not onto him. In the land abroad,
Where Mistur Tennyson rit his Maud,
He wuz loved. The kritticks did A. Ward
Him praise; they never kast, nor jawed
Him az they ar apt to do, nor clawed
Into him, ez iz usual—nor chawed
Him up, ez iz their wont—nor gnawed
Into him ez they delite tu do—nor sawed
Him tu pieces. They found him no gand—
But a trew gem, which wuzn't flawed;
And when he "spoke his piece," he drawed
Well with the Johnny Bulls, which pawed,
And bellered out, and was fairly awed,
By his curious sayins and saw hawd
Rite out in meetin'. They wuz kind toward
Poor Artemus—thank 'em for 't, and now life's cord
Iz snapped—he'z gone to hiz re-ward.

GOOD FOR FORTY TUNES.

The Shelby (Ind.) *Courier* says:—Organs in the churches have become very fashionable of late. In almost every church you go into, you will find one of these instruments. A friend of ours, who lives in a neighboring village, related to us yesterday, an amusing incident which occurred in their church.

He said, to be in the fashion, they must have an organ. The congregation could not afford to pay an organist, so they got a self-acting organ, a compact instrument well suited to the purpose, and constructed to play forty tunes.

The sexton had instructions how to set it going, and how to stop it; but unfortunately he forgot the latter part of his business; and after singing the first four verses of a hymn, the organ could not be stopped, and continued playing two verses more; then just as the clergyman completed the words "let us pray," the organ again clicked and started another tune.

The sexton and others continued their exertions to find the spring, but no one could put a stop to it; so they got four of the stoutest men in the church to shoulder the perverse instrument, and they carried it down the aisle of the church, playing away, into the church yard, where it continued clicking and playing away until the whole forty tunes were finished.

A LONG KICK.

Two Irishmen engaged in peddling packages of linen, bought an old mule to aid in carrying the burdens. One would ride awhile, then the other, carrying the bales of linen on the mule. One day, the Irishman who was on foot, got close up to his muleship, when he received a kick on one of his shins. To be revenged, he picked up a stone and hurled it at the mule, but by accident struck his companion on the back of the head. Seeing what he had done, he stopped and began to groan and rub his shin. The one on the mule turned and asked what was the matter.

"The cratur's kicked me," was the reply.

"Be jabers," said the other, "he's did the same thing to me on the back of the head."

TOO GOOD TO BE LOST.

A good joke is related of a couple of members of the West Virginia Legislature, which is worth relating. In conversation one day on the subject of the Lord's Prayer, one offered to bet the other five dollars that he did not know it. The bet was accepted, and, by agreement, the Legislator was to repeat it. He commenced as follows:

"Now I lay me down to sleep,
I pray the Lord my soul to keep,
If I should die before I wake,
I pray the Lord my soul to take."

"Well, I declare," replied the astonished Legislator, "you have won the bet, but I'll be —— if I thought you knew it," and forthwith handed over the five dollars, to the great amusement of a number of gentlemen present.

Anecdote of a Texas Soldier.—Napoleon, Arkansas, sends us an anecdote of a Texas soldier:

While trudging along one day all alone, a soldier met a Methodist circuit rider and at once recognized him as such, but affected ignorance of it.

Preacher—"What command do you belong to?"

Soldier—"I belong to the —th Texas regiment, Van Dorn's army. What army do you belong to?"

Preacher—(Very solemnly)—"I belong to the Army of the Lord!"

Soldier—"My friend, you've got a very long way from headquarters!"

THE STORY OF SANFORD CONOVER.

When in Revolutionary story a gallant man was sentenced to die, he begged to be shot, as a mode of honorable death. He had committed no moral wrong—was no thief, or perjurer, or murderer. His prayer was rejected, and he died upon the gallows. John Wilkes Booth, who was a murderer, who shot an unsuspecting, merry-making man as it were from an ambush, had the privilege which was denied to Andre, and was shot to death; and his last words of affection to his mother and devotion to his country were duly chronicled and embalmed. But if he was not hung, or chained, or tortured, Mary E. Surratt was. Muffled, and manacled, and perhaps unconscious, she, the Maryland mother of a broken-hearted daughter—perished on a gibbet, and her body rests in the unconsecrated soil of a prison-yard. One of the witnesses on whose testimony she was put to death by Holt, and Stanton, and Hunter, and Wallace, was Sanford Conover, now a convict of perjury for the very testimony he then gave. We propose from authentic materials to tell the story of Sanford Conover, and we beg for it the attention of our readers. It is well worth it.

It is not easy to find Conover's origin, but the first fact we know of him is that before the Lincoln murder, he says, he was in Canada, a correspondent of the New York *Tribune*. "As soon," says he, "as the investigation took place, I came on to Washington, and *offered myself as a witness.*" And he was welcomed and taken into pay, and as we have said examined on the trial of Mrs Surratt, and proved everything as to the complicity of the *Confederate authorities* that his employers desired, and was kept in their pay afterwards. Hanging Mrs. Surratt was not enough. That was easily managed. But implicating thoroughly the Confederate leaders in the deed of blood, was *more* difficult, and so, in the summer and autumn of 1865, Conover, under the auspices of the Bureau of Military Justice, went to work to cook up some corroborative testimony, to enlist some *more witnesses.*

"I want to ask you," said the Chairman of the Judiciary Committee, "in what capacity you were acting when you discovered the other witnesses you have named to the committee this morning?"

Answer. I was acting as AGENT for the Bureau of Military Justice.

Question. You were employed, then, by the government for the purpose?

A. Yes.

Q. What was the occasion of the employment of your services by the government?

A. The information that I gave to Judge Holt that I knew all these witnesses.

The summer of 1865 was an active time with Mr. Conover and the Bureau. He was an energetic agent, and before the 1st of November he had the witnesses all ready, drilled, and on the ground. The principal ones were two men calling themselves Campbell and Snevel. They were taken to Judge Holt, and on the 5th of November, 1865, Congress then about to meet and an investigation impending, their affidavits were made, Campbell's being taken down by Judge Holt himself, he—the Judge, so zealous was he in the cause—actually accompanying the witness to the magistrate, Mr. Caustin, to see that the work was properly done—and when the affidavit was made, Campbell was taken to the White House and introduced to the President and Mr. Seward and Mr. Stanton.

"Was this deposition," asked the committee, "written out by Judge Holt precisely as you gave it to him on the occasion of its being taken?"

A. Yes.

Q. Where was it taken?

A. In Judge Holt's office.

Q. Did you go with Judge Holt to the President after this

DEMOCRATIC GAINS EVERYWHERE.

The Radical newspapers are trying their best to break the force of their signal and disastrous defeat in Connecticut, by asserting that they have made gains elsewhere. Nothing could be further from the truth. In New York, Pennsylvania, Ohio, Michigan, Wisconsin, Minnesota, Kansas, and all through the Western and Middle States, the town and municipal elections have as clearly shown a decline in Radical influence as did the State elections in New England. There is abundant evidence that the people are beginning to reflect seriously upon the condition of the country. Reason is resuming her sway, and the future gives promise of a great and lasting change. That it will come, and come speedily, we conscientiously believe. All the signs of the times indicate the approach of a new political era.

☞ Minnesota shows evident signs of an early release from the thraldom of Radical rule. St. Anthony elects a Democratic Mayor and the entire city ticket. Democratic gain. The City of Red Wing, in the same State, elects a Democratic Mayor by 11 majority. Radical majority last fall, 200. Chatfield, in the same State, also elects the Democratic ticket by 40 majority. Mankato, in the same State, elects the the Democratic ticket by majorities ranging from 114 to 206. These are all Democratic gains.—The Minnesota atmosphere is decidedly invigorating.

☞ It is said the reaction from Radicalism in Indiana to Democracy is something both extraordinary and gratifying. The State is counted as certain for Democracy at the next election.

Connecticut.—There is a report, says the New Haven *Register*, that on a recount of the votes in the Sixteenth Senatorial District, Seth S. Logan, of Washington, was found to have a majority, and is therefore elected, giving the Democrats a majority of one in the Senate.

☞ The Democrats carried Circleville, Ohio, at the late city election, by a majority of 173, though the telegraphic report awarded the victory to the Republicans. Since the Connecticut election such mistakes ought to be less common than they were before it.

☞ Chicago has gone for the Radicals, but by one thousand less than last fall. A few years more and the metropolis of the West will wheel into the white man's ranks.

How They Protect Home Industry.—In a debate in the State Senate, recently, it leaked out that one of the "loyal" managers about the capitol—a member of that party who are constantly prating about protecting home industry, American manufactures, &c.,—had actually ordered and had made, in Europe, a carpet for the new library room, at a cost of $4,000. An American carpet would have answered every purpose, but they went to Europe for it, "supporting the pauper labor of Europe," (as they call it,) to the extent of four thousand dollars. Why don't these high tariff, home manufacture advocates practice what they preach?

☞ It is said that, after all, McConaughy managed to get from the Legislature an appropriation of three thousand dollars for his "Battle-field Memorial Association." How much did he secure for the sufferers on the border, many of whom were almost ruined by their losses? Echo answers—*not one cent!*

☞ Col. McClure says that the final adjournment "was one of the few acts of the late Legislature that the people will heartily sanction." Our belief, exactly.

☞ Whilst the Radicals of the late State Legislature are denounced by men of all parties, the Democrats receive general praise. This state of feeling bodes well for the future. It looks as though the people were opening their eyes to the true extent of Radical rascality. When once thoroughly open, State affairs are certain to pass into Democratic hands again. Until then, honesty and economy must continue to occupy a back seat.

☞ Mathew P. Welsh, nominated for the Postmastership at Chambersburg, was at first rejected, but on a second nomination, confirmed by the Senate. The Radical Senators hardly know what they want. Their course on the President's nominations is becoming a positive disgrace, and must recoil on them and their party.

☞ Senator Morton, of Indiana, in his address to the negroes in Washington, said: "The great example of Congress in making universal suffrage the rule in all the Southern States must now be followed in all the Northern States." Senator Sumner announced the same doctrine before the Connecticut election. How do the Radicals like the response?

☞ The portraits of Thomas H. Seymour and Isaac Toucey have been returned to their former place in the Senate Chamber at Hartford. Cause, the recent election in Connecticut.

The Loyal Key.—Morrow B. Lowry, the Senator from Erie, in his speech in the Senate on the Philadelphia Sunday car bill, said:

"If a barrel of whiskey and the Ten Commandments were running to-day for the office of reconstruction in Philadelphia, whiskey would be elected by more than two to one. I for one will not help harness up the Lord between shafts, with the devil in the lead, before the street cars in Philadelphia."

Our readers will recollect that the aforesaid Lowry is a celebrated loyalist, and the city of Philadelphia boasts muchly of her loyalty, and that therefore Lowry must of course tell the truth about his relations, however much this kind of Radical theology may affect a people controlled by "grand moral ideas."

☞ The registration of voters in Washington has been completed. There are 1,200 more negro than white voters. The negroes are highly elated, and talk of electing a regular black ticket, but the Radical leaders there urge miscegenation.

☞ Radicalism and Woolly Horses are at a discount in Connecticut.

THE STATE LEGISLATURE,

Republican Testimony as to its Imbecility.

The following is what "Horace," the Harrisburg correspondent of the Chambersburg *Repository*, has to say on the adjournment of the Legislature. The reader should bear in mind that this letter comes from a wool-dyed Radical, and is published in a leading Radical journal. Its source, and the channel through which it is given to the public, add to its statements a more than ordinarily significant weight. The letter reads thus:

All hail, Pennsylvania! Day has broken in on the starless midnight that has encircled our venerable Commonwealth. The people can breathe. The legislature of 1867 is no more. It has fought its last fight—it has won its last stake—it has brought gladness to over three million hearts by its adjournment. The gallant roosters have closed their legislative auction, and gone home with heavy hearts to settle their accounts with the people who in an evil hour entrusted them with brief authority. They have passed sixteen hundred laws, "pinched" others by the score, and finally, after over three months of legislative rioting, pinching, plundering and pocketing, their time has come, and they go out, as a rule, to return no more forever. Public bills were not considered. A few, perhaps a dozen in all, unimportant in their character, were passed, but sixteen hundred private bills have been added to our statutes, and the hugest of volumns will be added to our pamphlet laws. Just what has passed nobody knows, and none pretend to know. Gov. Geary has had hundreds of bills to dispose of during the last hours of the session, and how many of them had snug little serpents, hissing vipers, or regular anacondas coiled up in them, he will learn only when their fangs sink into some luckless victim and he prays from relief. The Senate has gradually degenerated until it rises but little above the House in point of the dignity of legislation. On Tuesday a large calendar of private bills was to be disposed of, and the first legislative tribunal of the State sat for hours passing bills by their titles, no one knowing what the body of the bills contained.—True they had passed committees, but who knew what had been interpolated by a stray word or line? or who knew what hidden serpents wriggled in them under the color of fairness? There sat Bigham and Ridgeway in front of the Clerk to hear the titles read, and as fast as pronounced by the Clerk they were declared passed. Occasionally some obstreperous Senator would interpose an objection, but he would be hawled down by a score of voices, saying—"let it go—it's all right—don't stop the machine!" and, lest his little bill might fall a victim to the retribution of some defeated associates he would quiet down and the farce would go on. Thus were hundreds of bills passed in the Pennsylvania senate, and they now stand upon our records as solemnly enacted laws. In the House it was the same, only a little more so. Instead of reading bills by their title, they read and passed many of them merely by their numbers. Neither title or body of the bills were read. Col. Quay at one time jocularly suggested that they had better pass the calendar of bills by the page, but it was deemed necessary to read the numbers, and thus they were rushed through. Of course in such a whirlwind of legislation the roosters had a good time, but often it would be discovered that there had not been a fair understanding or a fair divide; that some rooster, sharper than its fellows, had snaked a "good thing" through without giving the rest a show. Immediately upon the discovery of such a mistake, a motion would be made to reconsider, and as such a motion was always a notice to all the roosters that there was something wrong, it always carried. A hasty consultation would follow—a little knot of first class dealers would bob their heads together in a corner, the objectionable bill would appear all right, and go kiting through again. Thus rushed legislation for days, and especially the last few days of the session, until the enormous number of sixteen hundred bills were passed and nearly all of them have been approved.

After the farce of legislation was over, the mutal admiration business began in the House. Speaker Glass was presented with a gavel, a set of china ware, a silver set and a gold watch; Mr. Subers received a gold headed cane; Mr. Benedict received an ornamented clock; Mr. Smull a silver set, and Mr. M'Afee a silver set, after which the customary resolutions of admiration and the speeches of condolence came in. At last the hands on the Assembly clock pointed to high noon, the Speaker rose and—

"He spoke and bow'd—with muttering jaws
The wondering circle grinned applause."

He informed them of the sad fact that their time had come, that home they must now go, and he assured them of his best wishes and prayers. The last mournful roll-call had been made, and each one responded in sepulchral tones on the formal vote that dissolved their scarred and blackened but still unbroken column. With heavy hearts and sorrowing countenances they bent their steps from the scene of their debauchery, and after casting a long, lingering look upon the venerable capitol, they plodded homeward to meet their constituents.—But few left their seats with even the hope of returning, and of the hopeful ones, but a fraction will ever be returned. I watched them file out like so many condemned criminals marching to their fate, and it was painful to reflect that those who could go home with the hope of being welcomed with approval by their people were exceptions to the rule. Never before in the history of the State was such a depth of degradation attained by any similar body, and so shameless have they been that men, women and children point to them as blistered monuments of debauchery. They have gone to their last account with the people, and may God have mercy on them, for the people won't!

VARIOUS MATTERS.

— Maximilian is said to be a prisoner of war.

— A lawsuit is pending in Chicago about five inches of land.

— New Orleans is insufferably hot, while Maine has three feet of snow.

— The best flour sells for $6 a barrel in California, and in Utah for $7.

— The Tennessee Conservatives have nominated Emerson Etheridge for Governor.

— Twelve miners were killed in the Ashland Colliery, Schuylkill county, on the night of the 12th, by an explosion of fire damp.

— Confiscated used to mean to appropriate private property for public use, according to some law forfeiting it. It now means *stealing* in violation of law.

— The Boston *Post* thinks the Democrats of New Hampshire had great cause for joy, but the Nutmeg State furnishes a grater.

— Josh. Billings says yewker is a Mulatto game and don't compare to old sledge in majesty any more than playin' plus does to a square church raffle.

— The Supreme Court has refused to allow Mississippi to file a bill to restrain the President of the United States from enforcing the Sherman Despotism bill. The State of Georgia, which did not include the President, has been allowed to file a bill.

— At a Baptist festival in Burlington, Vermont, (Thad Stevens' State,) lately, a cake was voted, at ten cents a ballot, to the handsomest lady in the room. A colored lady got it. This explains the singular conduct of the Yankees in shipping their white maiden ladies to Oregon and Washington Territory.

LETTER FROM HARRISBURG.

HARRISBURG, April 16, 1867.

FRIEND STABLE:

Dear Sir,—More pressing business and a temporary absence prevented me from giving you a short account of the sayings and doings of the people of this, the metropolis of the great Commonwealth of Pennsylvania, and of the latter days of her Legislature. But being on the spot again, and having some spare time, I will attempt to give you a short history of the closing scenes of our late law-makers. First,

The so-called Republican party, but more properly the spirit, if not the body, of all the factions that have existed and been arrayed against the Democracy and our free institutions ever since the formation of our government, have had (and yet have) complete control of the State Government during the recent session of her Legislature, and they are therefore justly responsible to the people for all that was transacted here in that body during the past session. It is conceded on all sides, Republican and Democrat, that more bribery and corruption were practiced here by the Republican members than at any previous session, corrupt as have been their predecessors for the last six or seven years. This fact is so notorious, so patent, that every man and woman in this place speak of it in this light. A large mass of laws were enacted, probably from fifteen hundred to two thousand; and many more were considered, but from want of money to push their way through, the latter were either defeated or passed by without being taken up in one or the other branch. Your "Border Raid Bill" shared this fate. I am sorry to be compelled to chronicle this fact, as you, and no doubt many suffering citizens of your county expected a different result. I will give you a true and concise account of this bill, as far as it came to my knowledge, and I took particular pains to inform myself of its fate. As you no doubt are fully aware, having so stated in one of my former letters, the bill was brought up in the House sometime since, and was properly referred to the Committee of Ways and Means. This committee had it under consideration for some time, but did report favorably. So far everything looked bright and its friends were quite elated. In due course of time its friends in the House brought it before that body, and it was accordingly made the special order for a certain evening session. The time having arrived and the bill being brought up, an almost instantaneous onslaught was commenced against it by several Republican members. Adams county in particular shared a large portion of their billingsgate abuse, its citizens being stigmatized, irrespective of party, as traitors, secessionists and *copperheads*, and worse than the rebels themselves. After exhausting their wrath against poor Adams, the whole tier of the border counties included in the bill shared a similar fate. Obnoxious amendments upon amendments were offered by these Republicans with a view to make the bill odious to the Democracy; but they were foiled in this scheme. Votes were then had on the bill, which brought it to a third reading by a very respectable and encouraging majority. In this stage of proceeding it required a two-thirds vote to bring it to a final vote, and its friends being sanguine of success, accordingly made the attempt and failed only by two votes. Thus the bill went over in its regular order for a few days. When it was reached again in its regular order, a vote was taken on its final passage without one word of opposition or debate, and resulted in a majority of *eighteen*, fifty voting for it and thirty-two against it. This was quite an unexpected majority to its most ardent friends, as the bill would have been a heavy draw on an exhausted treasury. It also demonstrated the fact that its friends in the House did all that faithful and honorable representatives could do. It may be of some significance to state that only *three* out of the thirty-eight Democrats voted against the bill.

In this state, such favorable prospects before it, the bill was messaged over to the Senate. Every friend of the bill, after it fared so well in the House, was quite sanguine of success in that body. In fact, its most strenuous opponents in private conversation admitted that it would pass that body also. But how sadly were its friends disappointed in this reasonable expectation. Instead of being brought up and pushed through as did its friends in the House, the matter was not brought up at all in the Senate. Thus the measure and all the labor in the House were lost through the dereliction of some one whose duty it was to bring it up. That it could have been passed in the Senate there is no reasonable doubt. The measure stood very fair in both branches. In all probability it had assumed an attitude more hopeful of becoming a law than it can be brought to in the future. I think, and all with whom I have conversed on the subject agree with me, that you have lost a golden opportunity this session—all consider it as dead in all time to come—that there is no remedy left to the sufferers but a resort to the General Government. It is to be regretted that it was left to die out in the Senate after all the arduous labors in the House by its friends. Adams county having been the heaviest sufferer, it is supposed by competent judges here, that its citizens would have received by this bill at least one hundred and fifty thousand dollars. This would be no insignificant sum for your citizens, and would after a fair and impartial adjudication, have paid probably the whole or the major part at least of their actual losses.

I repeat, there must have been a preconcerted determination to defeat this bill in the Senate, or a gross and unjustifiable negligence by its friends there, for, if I have been correctly informed, they had ample material to pass it, equally certain as in the House. The Senate is composed of 33 members, 11 of whom are Democrats and 22 Republicans; of the 11 Democrats, I was told, ten would have voted for the bill, therefore requiring only 7 Republicans to ensure its success. These 7 could have been procured and more too.

Thus I give you a history of the fate of your favorite measure, and it is a true and faithful history; for, as you requested, I watched it closely as it progressed from time to time till its last breathing in the Senate.

Harrisburg has assumed quite a monotonous appearance since the adjournment of the Legislature. We breathe a little freer and are more at ease; but I presume our purses will shrink a little in consequence of it. I tell you the members of this august body were by no means a close-fisted set of fellows. They acted upon the principle of "easy come and easy go," and our citizens made many a dime. All classes were benefited by them, without distinction of "race or color."

SOJOURNER.

☞ The majority for a constitutional convention in Maryland will reach 10,000. The convention will assemble at Annapolis in May. The vote shows that the Radicals in that State "don't amount to pig tracks," and yet, by means of bayonets and fraud, the people were kept for years under Radical domination.

☞ Gen. Peter Lyle, a gallant soldier of the war, was rejected for Collector of Customs at Philadelphia, on the 15th, by the Rump Senate. This adds another to the thousands of valuable men and soldiers who have fallen victims to Radical malignity. Will the people tolerate such infamous ostracism much longer?

☞ Ex-Gov. David R. Porter was nominated by the President as Naval Officer at Philadelphia, but was immediately rejected by the Rump Senate. The Governor is too good a man in every respect to meet the approbation of the Disunionists. They fear anything in the shape of a man.

☞ It is said the Universalists are deserting the Radicals—not believing in endless punishment.

COUNTY AND TOWN AFFAIRS.

A LAST APPEAL.—During last week, quite a number of patrons in arrears called and paid up, with something in advance—for which we heartily thank them.

Will not all others indebted do likewise—do it *immediately*?—so that our earnest desire for the enlargement of the COMPILER may be carried out at an early day. A new Power Press, with the many other new materials necessary to the contemplated enlargement, will require a considerable amount of *cash*—in the neighborhood of two thousand dollars;—but there is enough on our books, with what we have recently collected, to see it safely through. The enterprise is therefore delayed for the *single* reason that the money needed is in our books, and not in our pockets. Were the reverse the case, the new machine, (railroads permitting) would grace the COMPILER office in ten days' time.

There is, then, but one obstacle in the way, and that we have plainly stated. It can easily be removed; and it is hoped that *those concerned* will lay the matter to heart, and *act* at once. ALL who owe us for subscription, handbills, advertising, or anything else, are asked, directly and squarely asked, to help us NOW with what they severally owe.

Some of our readers may think that we are over-earnest in this matter. It may be somewhat so; but are we not excusable, when there is but one obstacle in the way of a long-cherished object, in using earnest words and means to remove it.

Reader, if you are in arrears, don't lay down this paper without resolving to help us instantly. Don't wait for a private opportunity. The mails bring us money safely. Use them. No matter where you reside—in Adams county, or in any other county of this broad State, or in any State of this Union—and we have subscribers in most of them, from the Atlantic to the Pacific—consider this appeal as coming home to YOU, and that it ought to be a pleasure, as well as a duty, to assist in bringing out the old storm-beaten COMPILER in larger and brighter sails than it ever carried before.

—This is our last appeal on this subject. "Men and brethren," heed it. Much *may* depend upon its effect.

COURT PROCEEDINGS.—April Court was held last week—President Judge Fisher and Associate Judges Wierman and Robinson on the bench. The following cases were disposed of, with a large amount of current business:

COMMON PLEAS.

Absalom Smith vs. Joseph Barker.—Action in assumpsit, for stack of hay. Verdict for plaintiff for $169 39 damages.

QUARTER SESSIONS.

Commonwealth vs. Simon Krise.—Larceny of rings from Fahnestock Bros. Verdict, guilty, and defendant sent to the House of Refuge.

Commonwealth vs. James Timmins, Jr.—Malicious mischief and assault and battery. Verdict, guilty, and defendant sent to the House of Refuge.

Commonwealth vs. Walter Cassatt.—Robbery of money from Jacob Smith. Verdict, guilty, and defendant sentenced to one year in the Eastern Penitentiary.

Commonwealth vs. Basil Little.—Robbery of money from Wm. Morgan. Verdict, guilty. Motion for a new trial.

Commonwealth vs. the Same.—Larceny of chickens from Jacob Brinkerhoff. Defendant plead guilty, and was sentenced to thirty days in the County Jail.

Commonwealth vs. B. W. Cook.—Administering drugs, &c. Verdict, not guilty.

Commonwealth vs. Jacob Smith.—Larceny of a horse from James Cunningham. Verdict, guilty, and defendant sentenced to one year in the Eastern Penitentiary.

The bill against Andrew J. McLain, Reuben Jacobs and Charles Martin, for breaking open safe of Abraham Sheely, at New Oxford, was ignored by the Grand Jury, there being no evidence to sustain it.

The late Legislature having passed a law to authorize the Courts, upon petition, to appoint Auditors of Bounty Funds, on application the following persons were appointed for Cumberland township: Daniel J. Benner, J. M. Walter and E. G. Fahnestock,

And the following for Huntington township: John Dickson, Henry A. Picking and John F. Felty.

The applications for tavern license were all granted but one—that of Geo. W. Rex, at Middletown.

CLARKE SENT TO THE PENITENTIARY.—From the report of Court proceedings in last Wednesday's Chambersburg *Spirit*, we clip the following item, it having some local interest:

Com. vs. A. S. Clarke, *alias* J. Long—Larceny of Postage Stamps and money of the value of $130. On the night of the 25th of December, 1866, the post office at Waynesboro' was entered and stamps and money were stolen. The defendant was arrested in Gettysburg on this charge, and brought here for trial. The evidence was entirely circumstantial, but very conclusive, and the jury returned in a short time with a verdict of guilty. The Court sentenced the defendant to imprisonment in the Eastern Penitentiary for the period of two years.

☞ The remains of John T. McIlhenny, Esq., (for ten years editor and publisher of the *Star*,) were interred in Ever Green Cemetery on Tuesday last. The funeral was attended by a large concourse of relatives and friends; and he having held membership in the Odd Fellow and Masonic orders, both bodies also turned out on the occasion.

Mr. McIlhenny's age was 30 years 4 months and 4 days. He leaves a widow and two small children, who have the sympathies of the community in their severe affliction.

—We learn from the last *Star* that "no definite arrangements have yet been made as to its management," but that "its publication will be continued uninterrupted."

JURY LAW.—The new Jury Law, (for the whole State except Philadelphia,) passed both branches of the Legislature. We have not yet seen it—will publish as soon as we do.

☞ Bad Breath is often one of the attendants of a disordered stomach, and may be speedily obviated by the use of Coe's Dyspepsia Cure. By removing the cause the effect is removed. Our druggists all sell it.

FRESCOING.—We direct attention to the advertisement of Messrs. Debring & Bro., Fresco Painters, of Frederick, Md. They have attained a high reputation as artists, and the very superior work they are now doing in this place proves that reputation to be well deserved. We refer to the frescoing of the interior of St. James Lutheran Church, which they will complete during the present week. All who have seen it express but one opinion, and that is in the highest degree complimentary to Messrs. Debring and Brother. Church and other organizations in this county, desiring Fresco Painting done, should see or address them at once.

BUILDING ASSOCIATION.—The charter for a Building Association in this place was granted by the Court last week. A meeting of all favorable to the organization of such an Association will be held in the Arbitration Room next Saturday evening, and a general turn out is looked for.

MEETING OF CLASSIS.—Zion's Classis of the German Reformed Church will meet in this place on the second Friday in May next, (the 10th.)

SHEAFFER'S NEW GALLERY AT HANOVER has the largest Sky-light in the State, and is now making some of the finest pictures in this country. Try it, and be convinced.

CROPS.—The grain looks remarkably well in every section of the country. Farmers say the crops never looked better.

☞ Ex-Sheriff Wolf has purchased about 5 acres of land, on the York turnpike, from Nicholas Codori, at $650.

☞ Sheriff Hann goes to Philadelphia this morning with four prisoners.

☞ Mr. L. F. Dean, at the Keystone House, still has a few township rights of his invaluable Patent Broom left, which he will dispose of on easy terms.

☞ A writer in the Harrisburg *Patriot and Union* recommends Hon. F. M. Kimmell for Supreme Judge.

☞ If our friends will use preparations for restoring gray hair, they should use the best in the market. Our attention has lately been called to an article which has an extensive sale and a very high reputation, known as Ring's Vegetable Ambrosia, and we are inclined to think that it possesses more desirable and less objectionable qualities than any other in the market. It restores gray or faded hair to its original color in a most remarkable manner, and by its invigorating and soothing properties removes all dandruff and humors from the scalp. Give it a fair trial and you cannot fail to like it. *

☞ We understand that Geo. F. Miller, of the 14th district, declared to persons in this city upon his return from Washington, that the Connecticut election had entirely exhausted the Radical fund collected in that city—a fund amounting to about $90,000. This shows how hard the Rads fought that fight, and how badly they must feel over their defeat.—*Patriot & Union.*

Sunday Cars.—The question of running cars on Sunday has been submitted to the people of Baltimore, with the result of 11,039 votes in favor, and 9,056 against. The majority is small, but quite enough to show that the people of Baltimore need what they have voted for. Here, in the crowded metropolis, it seems only surprising that nine thousand voters could have been induced to oppose so indispensable a step of progress. We presume that the people of Philadelphia will follow the example of Baltimore, and that the churches in both cities will prosper all the more for the convenience of Sunday cars.—*New York Tribune, April 13.*

☞ The authorities in South Carolina estimate that one hundred thousand people in that State have not tasted meat for thirty days. The destitution is represented to be very great and several cases of starvation are reported.

☞ Some three thousand negroes were present at a Radical meeting at Mobile on Friday. Inflammatory speeches were made by both black and white speakers. Most of the negroes present were armed, and a great number of shots were fired in the air after adjournment.

☞ A Radical Convention at Richmond, Va., last week, was composed almost entirely of negroes.

☞ The elections in Jersey city, Patterson and Bayonne, N. J., were decided in favor of the Republicans, while Hoboken, Hudson city, Harrison and Kearneyville went Democratic.

☞ Almost every young lady is public-spirited enough to have her father's house used as a court-house.

A Young Lady

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, bushel-tinged sun burn, a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance a hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, supple and beautiful. An Able Practitioner.

If you have a lame side, a bad headache, heavy cough, or cold, or a general nervousness, one moderate dose is sufficient—say as a brisk purge, four to six pills; as a laxative, one or two pills, to be taken at night on retiring. They are admitted to be the best protector against every form of disease. They soon clear and restore the Stomach, Liver, and Blood, Diseases of the Kidneys, and all secretions, and exertions of the whole system in unhealthy to a healthy condition, renovate and repair the injuries and wastes of the entire organism—vegetable ingredients throughout—no minerals whatever. Persons feeling dormant, having no ambition, the young of both sexes, who are growing fast and complaining of no appetite, of broken rest and a cold, reluctance to business, will find them extremely efficacious. The married and single, of the opposite sex, suffering from lost strength, and whose systems seem deranged, should invariably use Radway's Regulating Pills. So in all Diseases of the Bowels, in the purifying of the Blood, according to the promulgation of Health. They purge mildly, are coated with sweet gum, making them tasteless to the palate, and are free from smell. As they are at all times useful, no family should be without them.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Scrofulous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this Sarsaparilla, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often soon cured by this Extract of Sarsaparilla.

Do not discard this invaluable medicine because you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used AYER's—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn from Disordered Stomach, Pain, or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Neuralgia, and for a Dinner Pill.

Allcock's Porous Plasters.

Hartford, Conn., Nov. 11, 1861.

Messrs. THOS. ALLCOCK & CO.—Please send, with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He is soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single Plaster if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them rendered them greatly superior to all others for ordinary surgical uses. Knowing the plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

At the great trial of Reapers and Mowers at Auburn, N. Y., in July last, by the New York State Agricultural Society, this Machine was awarded the preference over all others in Class No. 5. This class was the most important of any, as it embraced Mowing and Hand and Self-raking Reaper in the same Machine.

Both first-class Machines, having sold a number of these Machines in the last three years. They have given general satisfaction wherever used. We ask farmers to call and examine these machines before purchasing elsewhere, as they will be able to make a better selection. We could produce quite a number of certificates from some of the best farmers in the county, but deem it unnecessary, as we warrant these machines to give satisfaction with a fair trial, or no sale. Insured for one season.

Extras always kept on hand. We have made arrangements to have repairing done when needed at any time and on moderate terms.

With the above we have for sale a number of valuable Farming Implements.

SULKY CORN PLOUGH,

Can be used for ploughing and cultivating corn—finishing one row at a time. Can also be used for loosening up corn ground or putting in seeding. By raising the front shovels it can be used for marking out corn ground—marking two rows at a time. A Corn planter can also be attached, planting two rows at a time.

FOR FAMILIES AND MANUFACTURERS.

THE HOWE LOCK-STITCH

THESE WORLD-RENOWNED SEWING MACHINES

Are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are now able to supply the very best machines in the world. These machines are made under the immediate supervision of the President of the Company, ELIAS HOWE, Jr., the original inventor of the Sewing Machine. They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, Dress-Makers, Tailors, Manufacturers of Shirts, Collars, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Boots, Shoes, Harness, Saddles, Linen Goods, etc. They work equally well upon silk, linen, woollen and cotton goods, with silk cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed. On Shoes and Leather work it is admitted to have no equal.

THE QUALITIES WHICH RECOMMEND THEM ARE:

1. Beauty and Excellence of Stitch, alike on both sides of the fabric sewed.
2. Strength, Firmness and Durability of Seam that will not Rip or Ravel
3. Economy of Thread.
4. Attachments and wide range of application to purposes and materials.

The stitch invented by Mr. HOWE, and made on this Machine, is the most popular and durable, *and all Sewing Machines are subject to the perpetual invention of his.*

REAPERS AND MOWERS.
Hoff heins' Patents.

The No. 1 Machine has two Driving Wheels, Hinge Joint and Folding Bar, making it very convenient to move from one place to another; is very simple in its construction, extremely light draft and durable, cuts 4 feet 10 inches in grass and 5 feet 2 inches in grain; is a Self-Raker and Side Delivery, and is capable of cutting a whole field without binding a sheaf, and does the most satisfactory work

This Machine can also be used as a Hand Machine without injuring its qualities as a Reaper. The Machine is warranted to cut Grass as well as any Single Mower that cuts the same width. It is a strong two-horse Machine—three or four can be used, if required, in hilly ground.

GREAT IMPROVEMENTS have been made for the coming season.

The Machine is also perfectly balanced, no weight on the horses' necks in Mowing or Reaping.

No. 2 is a light two-horse Machine, and is differently constructed, cutting on the right-hand side; and in front of Driving Wheels is a Self-Raker and Side Delivery. The difference in the width of cut is 6 inches.

The shifting lever and the raising and lowering levers are both at the driver's right side, and with his right foot upon a pedal and his left upon a foot-step, he has the power and control of the whole machine, he can raise or lower the platform from three to fourteen inches, can throw the machine out of gear, and regulate the rake so as to make the sheaves large or small, and all this at the same time and without retarding the motion or speed of the machine.

All Machines warranted to give satisfaction! For further information apply to

NATIONAL SELF-DISCHARGING STEEL SPRING TOOTH

Horse Rake!

Patented September 9th, 1862, and Re-issued December 6th, 1864.

This Rake is an Independent Steel Spring Tooth Rake, and has proven itself to be the most perfect HORSE RAKE now in use. With this Rake the Horse does all the work, both the Raking and Discharging, by the driver moving a lever a few inches, which throws it in gear, and as the horse moves forward it raises the teeth and discharges its load, and then shifts out of gear itself, the teeth dropping down ready to rake again. By this operation it is easily understood that the *Raker has hardly any work to do at all!*

Important improvements have been made of late, making it very simple and durable in its construction. Thousands of them have been sold in the few last years, and given the best kind of satisfaction.

The World Astonished

AT the Wonderful Revelations made by the great Astrologist, MADAME H. A. PERRIGO. She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophies, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of the above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Reparator Capilli.

Throw away your false frizzles, your switches, your wig—
Destructive of comfort, and not worth a fig;
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for it; no money, which will be returned you on application, providing entire satisfaction is not given. Names of all purchasers will be registered, and if entire satisfaction is not given in every instance, the money will be cheerfully refunded. Price by mail, sealed and postpaid, $1. Excelsior! Excelsior!

CHASTELLAR'S HAIR EXTERMINATOR! For removing superfluous Hair.

To the ladies especially, this invaluable depilatory recommends itself as being an almost indispensable article to female beauty, is easily applied, does not burn or injure the skin, but acts directly on the roots. It is warranted to remove superfluous hair from low foreheads, or from any part of the body, completely, totally and radically extirpating the same, leaving the skin soft, smooth and natural. This is the only article used by the French, and is the only real effectual depilatory in existence. Price 75 cents per package, sent postpaid, to any address, on receipt of an order by

Manhood:

HOW LOST, HOW RESTORED.—Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the RADICAL CURE (without medicine) of SPERMATORRHŒA, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents, or two post stamps. Also Dr. Culverwell's "Marriage Guide," price 25 cents. Address the publishers,

Julien Jarrod's "EMAIL DE PARIS."

THE NEW
Beautifier of the Skin.

TESTIMONIALS FROM CELEBRATED LADIES.

This secret of beautifying the skin being known only to Messrs. Jared & Rene, they honorably state that it differs from all other preparations. It gives to the most harsh and freckled skin both the texture and color of polished ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or blackworm specks, and is especially successful in smoothing out the marks left by the smallpox.

The agents of "L'Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as

Signora RISTORI,
M'dlle FELICITA VESTVALI,
Miss MAGGIE MITCHELL,
Mrs. D. P. BOWERS,
LUCILLE WESTERN,
Madame PONISI,
Mrs. EMMA WALLER,
LUCY RUSHTON,
NOEMIE DE MARGUERITTES,
Miss A. PERRY,

and many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.

The beautiful Lucille Western says:

"I find that the "Email" produces all the brilliancy of rouge and lily-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin."

The magnificent Vestvali says:

"I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth."

Miss Maggie Mitchell says:

"I have tried the skin beautifier, 'L'Email de Paris,' and found that it instantly imparts a natural bloom and freshness to the complexion."

"Jared's Email de Paris" is used as a delicate beautifier of the skin for Theatre, Saloon or Ball Room, by the most refined and scrupulous ladies, producing all the beautifying effects of rouge and lily-white, without their vulgar glare or injury to the skin.

Sold by all first-class Druggists, Perfumers and Ladies' Hair Dressers.

McCreary & Son, and I desire to say to my old friends and the public generally that since the war, the manufacture of Saddles, Harness, Collars, &c., has been revived at the old established and well known stand on Baltimore street, one square south of the Court House, Gettysburg, Pa.

Having had an experience of 40 years in this establishment, I feel assured, that, with renewed attention to business, we can still further merit and receive a full share of public patronage. DAVID McCREARY.

With increased facilities for conducting our business, we are better prepared than ever to satisfy the wants of all those who may need anything in our line. We especially call the attention of Farmers and others to the superior quality of our
